

Wall Mount Installation

Please read entire guide prior to starting installation.

NOTES

1. Installation must be carried out by a licensed electrician & executed in accordance with local codes.
2. The installing contractor assumes all liability for the safety and code compliance of the installation.
3. Optic Arts is not liable for any damages caused by improper wiring, driver overloading, driver under-loading, power surges, poor system design or layout, negligence or other conditions.

1.

1.1 Remove faceplate from controller by carefully inserting a flathead screwdriver into slot A and gently pulling up.

2.

2.1 Make power and DMX connections on the controller body terminal blocks (See Figure 1).

2.2 Mount controller body on Junction Box with screws.

2.3 Align faceplate connector with pins on controller body and snap faceplate into place.

2.4 Fit controller onto JBox.

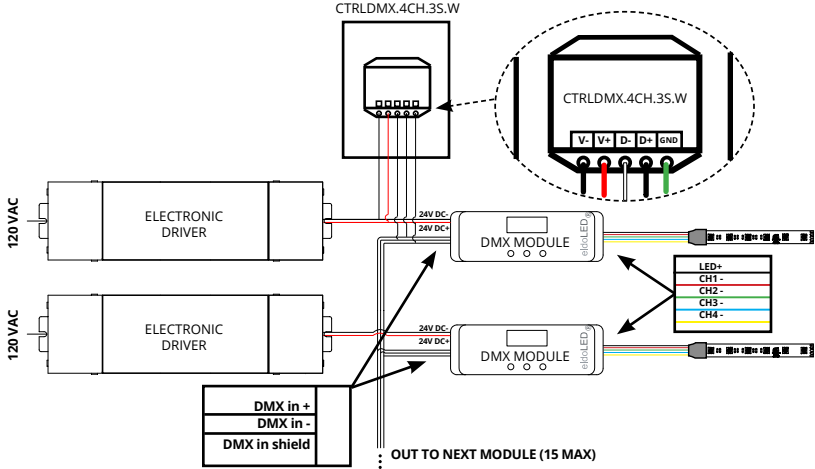

***Note: Power to come from GG100E-24-UNV Driver used to power fixtures. Controller consumes 5 watts.**

Note: Wire color coding depends on wire type used.
